---

**Architect:** Studio Pali Fekete architects [SPF:a]

**Location:** Beverly Hills, CA

**Description:** This single-family residence that sits atop an existing flat pad features a façade held in place by a high-performance two-sided architectural panel tape. The owner of the home was an executive of 3M, which is where this tape was developed and to our knowledge is the first application for a residential home.

**Completion Date:** 2015
